Certificate № 2749-CPR-EN 1090-2-007

General Terms

1. This certificate remain valid as long as the conditions laid down in the above mentioned technical specifications in reference or the manufacturing conditions in the factory itself are not modified significantly.
2. This certificate may be reproduced or published for advertising or other purposes only in its entirety. The wording of any marketing publications must not be contradictory to the contents of this certificate.
3. The certifying body reserves the right to perform inspections at the company's premises at any time, without having to give notice and subject to additional charge, in the event of questions arising with regard to the manufacturer's qualification.
4. This certificate may be withdrawn, amended or modified at any time, with immediate effect and without compensation, if the conditions under which it has been issued have changed or if the requirements of this certificate have not been complied with.
5. The certifying body must be notified of following changes:
 - a) new production plant or changes to key production facilities;
 - b) changes in the position of responsible welding supervisor;
 - c) introduction of new welding procedures, new basic materials and corresponding WPQR's (welding procedure qualification records);
 - d) new key production facilities.

In the cases referred to above the certifying body will arrange for an inspection to be performed by the inspection agency.

6. When the qualification has to be recertified The manufacturer must file an application with VBG SERV Ltd. at least two months prior to the expiration date.
